

Delivers an emotionally engaging journey through a cabin space designed for immersive realism

Panasonic
AUTOMOTIVE

WELL Cabin Luxe | WELL Cabin GranLuxe

Creates an immersive experience through integrated control technology for large transparent displays, 3D sound, lighting, and scent

»Benefits

- Business executives operate in consistently high-pressure environment. The cabin is envisioned as a comfortable second office—an environment where they can work more efficiently and relax between engagements.
- This service is designed to transport affluent individuals and inbound travelers, to and from destinations such as sightseeing spots and sporting events. The premium cabin space enhances excitement and delivers exceptional hospitality.

»Technical Advantage

- Large transparent display
Transparent 55-inch display to reduce sense of confinement with a 55-inch large transparent display
- 3D Sound
Integrated speakers in the seat reproduce inaudible frequencies for deeply immersive audio experience
- Dynamic lighting synchronized with visual contents and audio to enhance spatial immersion

»Application

- VIP mobile office space
- Sightseeing/event transportation service
